SUMMARY

Hi, I'm Rina, a designer with a Computer Science background who enjoys creating intuitive, user-centered digital experiences. I turn ideas into clean, functional designs through wireframing, and prototyping, always aiming to build products that are both engaging and easy to use.

EDUCATION

ITE Central College - Higher Nitec *2016 - 2018*

- Higher Nitec in Games Art and Design

Nanyang Polytechnic College - Diploma *2019 - 2022*

- Diploma in Multimedia & Infocomm Technology

Singapore Institute of Technology (Digipen) - Degree *2022 - 2026*

- Computer Science in Interactive Game Development and Design

EXPERIENCE

Monetary Authority of Singapore (MAS) Internship *May 2025 - March 2026*

Roles:

- Automated routine cloud management tasks using scripting to improve operational efficiency in AWS
- Designed and animated a department 3D mascot
- Designed a year-end infographic poster summarising team progress, showcasing data visualisation and visual communication skills.

Infocomm Media Development Authority(IMDA) Internship *Oct 2017 - Jan 2018*

Roles:

- Designed game assets and character costumes for an anti-cyberbullying game targeting students with special needs
- Conducted user testing sessions with students to gather gameplay feedback and iterated designs accordingly

SKILLS

Coding/ Web Language: JavaScript, C, C++, C#, PHP , HTML, CSS, SQL

Tools and Softwares (Tech): Git, Vs code/Vs, Unity, AWS
Tools and Softwares (Design): Figma, Photoshop, Adobe XD, Canva, Maya, Blender, Procreate

Soft Skills: adaptable, creativity, team-player, flexible

CERTIFICATION

Foundations of User Experience (UX) Design *Jul 2026*
Coursera (Google)

PROJECTS

Title: Boba Time, Game Development *Year3 University*

Description:

- Develop a fully playable 3D game using a custom engine, taking ownership of game mechanics design and the prototype built in Unity with C# with a team of 10

Role:

- Served as Art Lead: created the majority of 3D characters, backgrounds, and hand-drew 2D cutscenes, ensuring a cohesive visual identity throughout. Also designed UI/UX assets and interfaces in Figma and Procreate for a 3D game.
- Scripted game interactions and logic directly in the team's custom engine and Unity
- Balanced both visual and functional responsibilities, delivering a polished player experience within a structured team environment.
